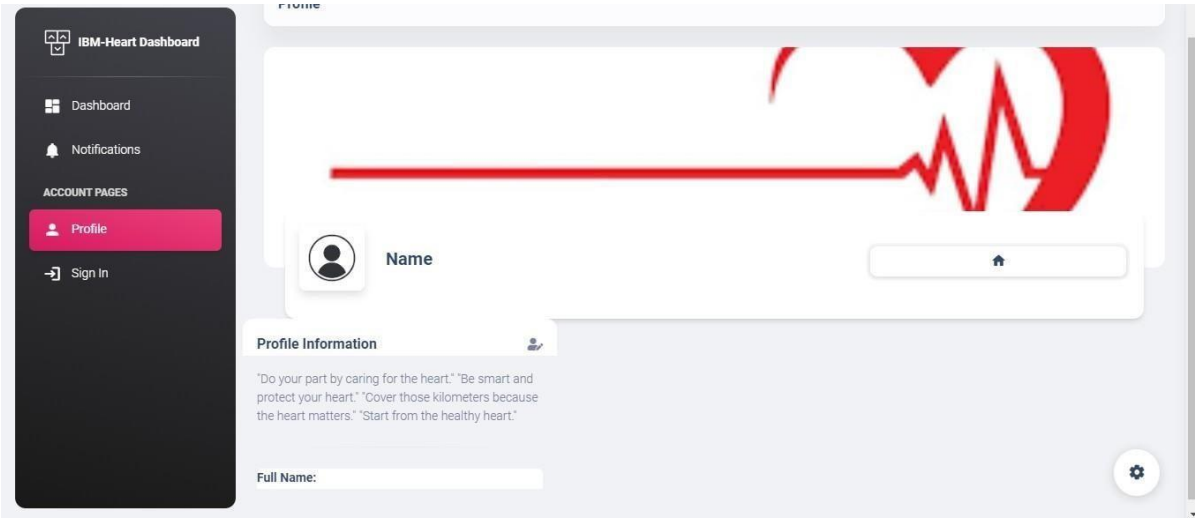
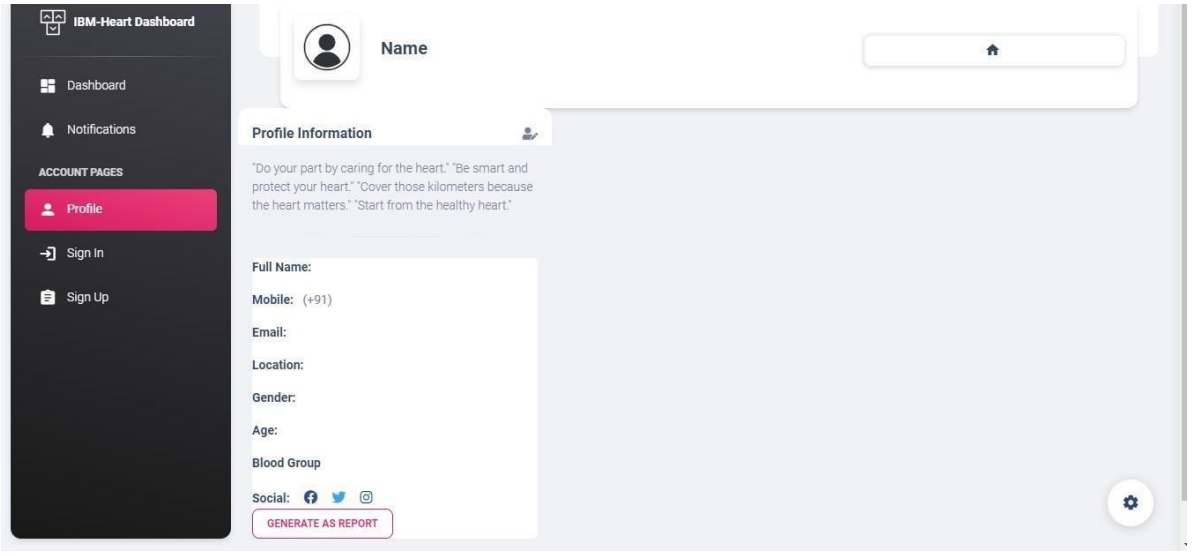
Project Development Phase

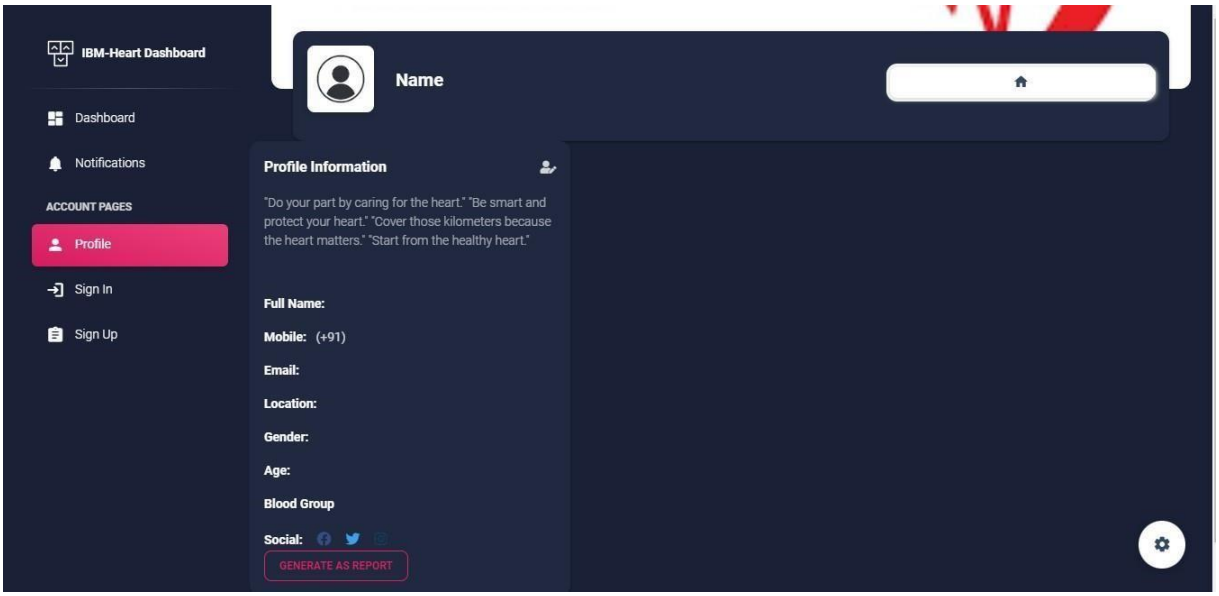
Date	04 November 2022
Team ID	PNT2022TMID02838
Project Name	Project – Visualizing and Predicting Heart Diseases with an Interactive Dashboard

Sprint-2

Profile- To Know the User about Him/Her Information and provide to Generate the Report for his Analysis







Dataset collection - The data required for analysis and prediction must be collected from various sources,Collecting Dataset from Different Site.

Heart Disease Prediction
